

ACCEDI ALLA BIBLIOTECA ON LINE PER CONSULTARE E SCARICARE LE RIVISTE SCIENTIFICHE

SE SEI COLLEGATO ALLA WI-FI DELL'UNIVERSITA' PUOI CONSULTARE DIRETTAMENTE L'ELENCO DELLE RIVISTE (PAG. 6);

SE VUOI CONSULTARLA DA CASA DEVI PRIMA CONFIGURARE IL PROXY SEGUENDO LE SEGUENTI INDICAZIONI:

SERVIZIO PROXYBIB

Le banche dati e i periodici elettronici acquistati dall'Università di Pavia possono essere consultati dall'esterno dell'Ateneo configurando il proprio browser in modo da poter utilizzare la rete dell'Università.

Dall'interno della rete d'ateneo il proxy non deve essere utilizzato anche se è installato sul computer: se viene utilizzato dall'interno della rete viene richiesta la password ed è quindi necessario entrare nel menu di configurazione e disabilitare il proxy.

CREDENZIALI D'ACCESSO:

Gli studenti e i dottorandi devono utilizzare come username il proprio codice fiscale e come password quella che usano per il [collegamento WI-FI](#) (pw dei Servizi d'Ateneo); user e password devono essere digitate in maiuscolo. La password viene fornita al momento dell'immatricolazione:

COME CONFIGURARE IL PROXY:

Si consiglia l'uso del browser Firefox, più semplice da configurare e correttamente funzionante in ogni versione e con qualsiasi sistema operativo; per Firefox è stata anche sviluppata un'estensione che effettua la configurazione del proxy automatica.

Configurazione del proxy

(Chi desiderasse utilizzare il browser Firefox e non lo avesse già installato in precedenza può [scaricarlo gratuitamente](#) dal sito del produttore <http://www.mozilla-europe.org/it/firefox/>.)

Prima di procedere alle operazioni di configurazione si informa che è disponibile un'estensione personalizzata che permette di registrare automaticamente le impostazioni del proxy. Installandola ([estensione http://siba.unipv.it/proxy/proxybib.xpi](http://siba.unipv.it/proxy/proxybib.xpi)) si può passare direttamente al [punto 3](#). L'estensione è installata correttamente se nella barra in basso a destra di Firefox compare un'icona con il simbolo dell'Università che permette, selezionandola, di attivare e disattivare il proxy.

Nota: dalla versione 4.x di Firefox (visualizzabile dal menu Aiuto -> Informazioni su Firefox), per visualizzare l'icona e avere a disposizione le funzionalità di attivazione e disattivazione del proxy, è necessario visualizzare la Barra dei componenti aggiuntivi utilizzando il menu: Visualizza -> Barre degli strumenti -> Barra dei componenti aggiuntivi

Proxy attivo

Proxy disattivo

Gli utenti che hanno più di un proxy installato possono scaricare l'estensione [FoxyProxy](https://addons.mozilla.org/it/firefox/addon/2464) (<https://addons.mozilla.org/it/firefox/addon/2464>) che permette di gestire contemporaneamente l'attivazione e disattivazione di più proxy.

Se viene aggiornata la versione di Firefox probabilmente è necessario disinstallare l'estensione e installarla nuovamente: da strumenti > estensioni > disinstallare proxybib > riavviare il browser. Reinstallare l'estensione.

Configurazione manuale

1.a Gli utilizzatori di sistemi operativi Windows e Linux devono aprire da Firefox il menu Strumenti e selezionare Opzioni

Passare a 2 [Connessione](#)

1.b Gli utilizzatori di sistemi operativi Macintosh devono aprire da Firefox il menu Firefox e selezionare Preferenze

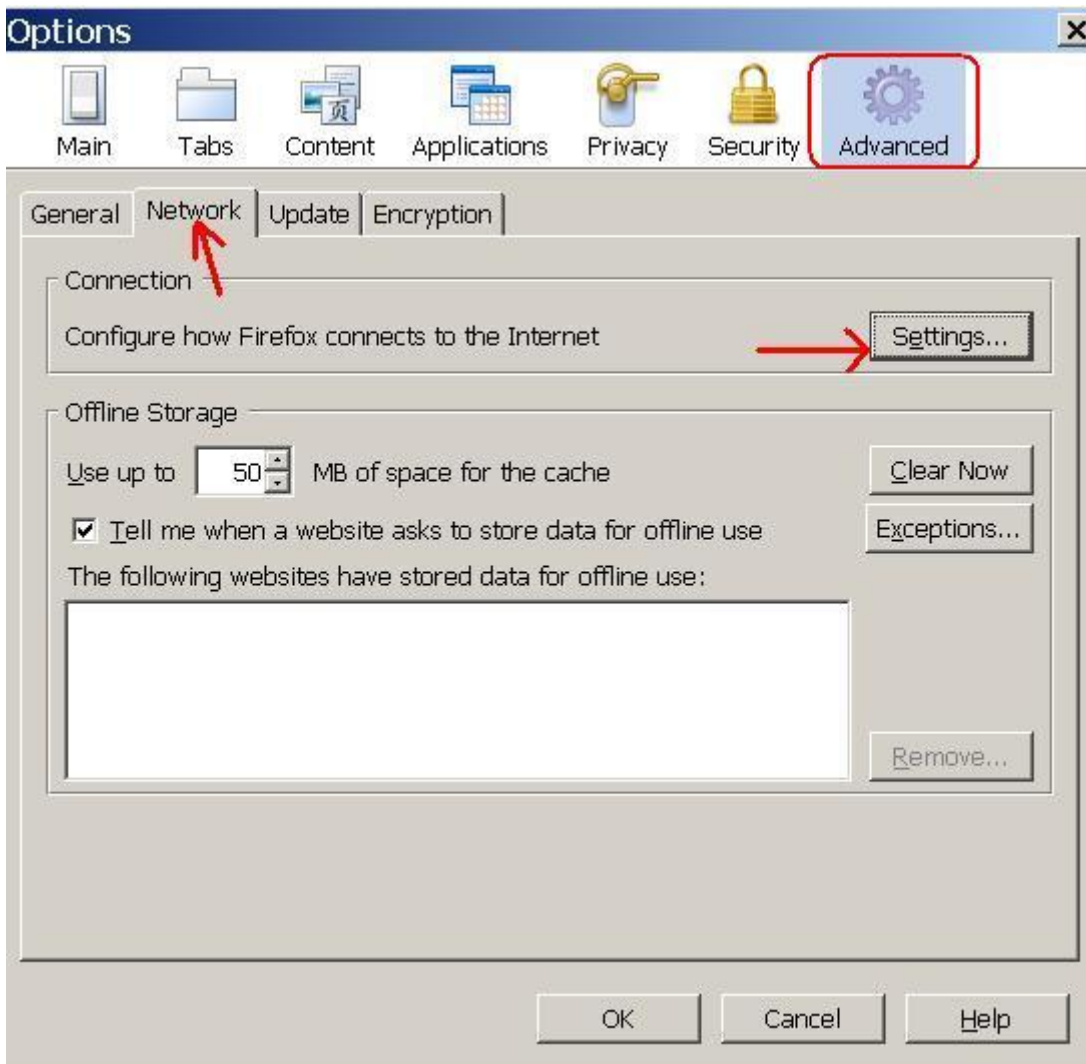

2 Connessione

Selezionare il foglio Avanzate.

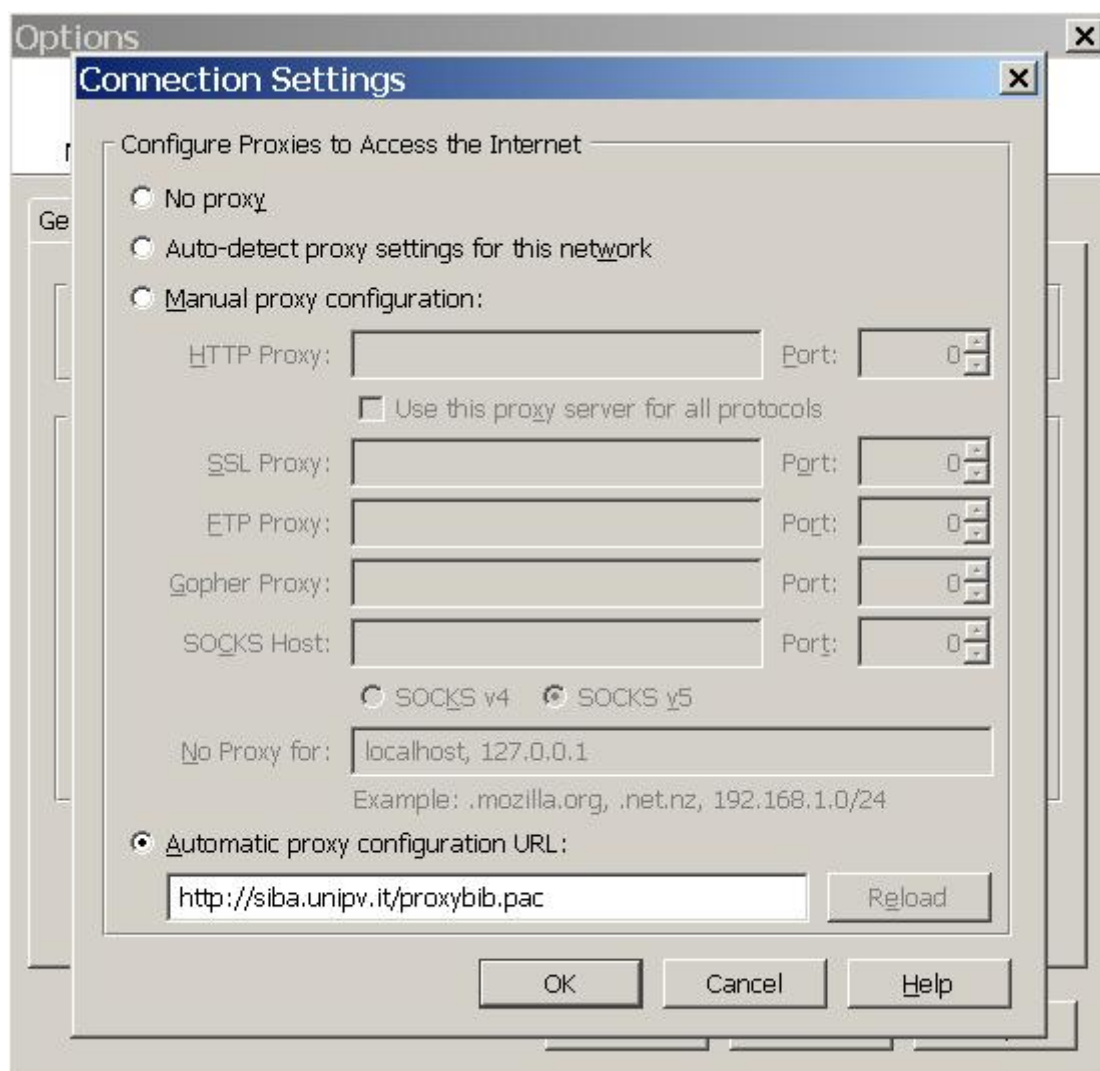

Scegliere Rete

Selezionare il bottone Impostazioni

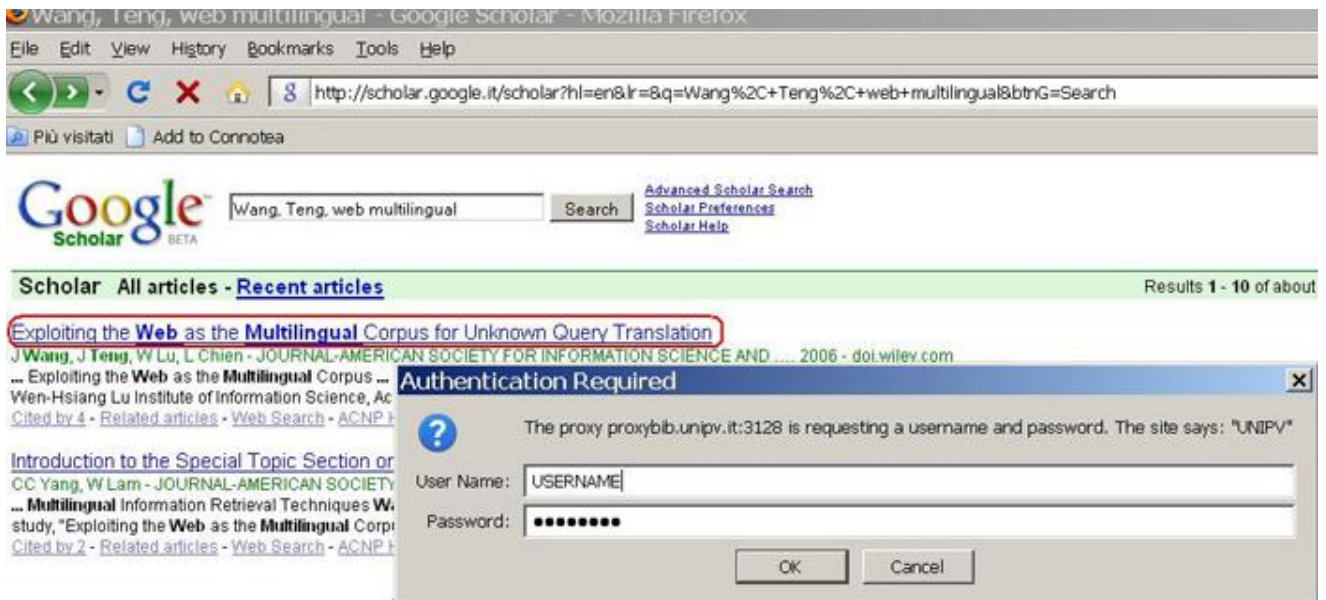

Spuntare la voce Configurazione automatica dei proxy (URL) e inserire l'indirizzo: <http://siba.unipv.it/proxybib.pac>

Selezionare il bottone OK e riavviare il browser.

3 Inserimento credenziali

Con questa configurazione il proxy è attivo e permette di accedere alle risorse digitali dell'Università: durante la navigazione, al primo accesso ad una risorsa fra quelle in abbonamento, appare una casella di richiesta in cui è necessario autenticarsi inserendo le proprie credenziali (in maiuscolo!):

Per disattivare il proxy è sufficiente entrare nel menu che contiene l'indirizzo del proxy e selezionare la voce Connessione diretta a Internet (no proxy); chi ha installato l'estensione personalizzata può anche selezionare l'icona con il simbolo dell'Università presente sulla barra di stato di Firefox in modo che appaia barrata.
